Did You Know?

Students' involvement in co-curricular activities has been proven to increase their chances of success later in life. However, it is important for parents to realize that less than 1% of students participating in co-curricular activities will make a living in that activity. Parents should NOT expect their son or daughter to receive a full ride college scholarship or make a living as a result of their participation in co-curricular activities because, for most, that is not reality. Parents should encourage their children to participate in co-curricular activities because their children will have fun, enjoy being with their friends and because of the lifelong values they learn through participation.
