

1905-58 IHSAA MEMBERS SCHOOLS - COLORS, MASCOTS, CURRENT ATTENDANCE CENTERS

Updated with Additions: October 2, 2018

The following schools **have been or currently are** members of the Iowa High School Athletic Association. The following list is of approximately 1,165 public and private schools includes those who were IHSAA members at various times in the years 1905-1958. In many ways they were/are the representatives of over 4,000 schools, many that were one-room country schools.

The school colors and mascot/nickname are listed when we have been able to find them as well as the current school district they would be attached to today. **For most schools in this era, the girls' teams added the traditional "ettes" to the mascot. When that was not the case, the girls' nickname is noted with a "G". We have also tried to account for various changes in colors and mascots that some schools had.**

Corrections or missing information on a school(s) or ones that have been omitted can be sent to Bud Legg at the IHSAA – blegg@ihsaa.org. This project was a 39-month "love affair" by the IHSAA, and first posted in August 2010. It is updated as new information is received.

The IHSAA respects that this information needed to be preserved on our website and in the Iowa Hall of Pride because of its significance to their school/community history, and because they were the members who help form and bring structure to the IHSAA. We placed our efforts in the era before the wave of school consolidations that started in the 1950s and continues today including whole grade sharing agreements. As an example, you won't find South Hamilton (started in the late 1950s) but you will find the four communities, Jewell, Ellsworth, Randall and Stanhope that make up that district. We concentrated on the individual schools before being a part of the wave of consolidations that started in the 1950s.

This task was larger than one person and would not have been possible without the efforts of Paul Juhl from Iowa City who shared information he had gleaned while doing a similar project and Steve Roth, a historical researcher and Marion High School graduate. We were also assisted by the efforts of many newspaper writers, school and community leaders and citizens who shared information. To all those people, too numerous to name, we are indebted and proud of your "ownership" in this list.
