IHSAA MEDICAL RELEASE FOR WRESTLERS BELOW 7% BODY FAT

THIS FORM MAY ONLY BE COMPLETED BY MEDICAL PROFESSIONALS WHO ARE PERMITTED BY IOWA LAW TO PERFORM PRE-PARTICIPATION ATHLETIC PHYSICALS: (Medical Doctor, MD; Doctor of Osteopathic Medicine, DO; Doctor of Chiropractic, DC; Physician’s Assistant, PA; or Advanced Registered Nurse Practitioner, ARNP)

This is the ONLY form accepted as a “MEDICAL RELEASE FOR WRESTLERS BELOW 7% BODY FAT.” A copy of this completed form must be mailed or faxed to the Iowa High School Athletic Association, PO Box 10, Boone, IA 50036 (515-432-2961), by the school for whom the wrestler competes, after the last signature is obtained.

Any wrestler whose body fat percentage at the time of body composition assessment is BELOW 7% for males and 12% for females must obtain, in writing, a medical clearance stating the wrestler is naturally at this sub-7% or 12% body fat level. This release is valid for only one season and expires following the State Individual Wrestling Tournament each year.

The sub-7% male, or sub-12% female, who receives this clearance may NOT wrestle at a weight class below his/her weight at the time of body composition assessment. Example: A wrestler weighing 110 pounds at the time of body composition assessment with less than 7% body fat may NOT wrestle below the 113-pound weight class.

WRESTLER’S NAME: ______________________________ GRADE: _____ SCHOOL: ____________________________

OFFICIAL BODY COMPOSITION ASSESSMENT VERIFICATION - STEP #1

DATE OF OFFICIAL BODY COMPOSITION ASSESSMENT: _________________________________________________

ACTUAL WEIGHT AT OFFICIAL BODY COMPOSITION ASSESSMENT: _______________________ pounds.

PERCENT BODY FAT AT OFFICIAL BODY COMPOSITION ASSESSMENT: _____________ percent. ___________________________________________________________________________________________

Signature of assessor & name of agency conducting the official body composition assessment DATE

EXAMINING MEDICAL PROFESSIONAL’S EVALUATION INFORMATION - STEP #2

DATE OF MEDICAL PROFESSIONAL’S EVALUATION: ____________ WEIGHT AT MEDICAL EVALUATION: _________

LICENSED MEDICAL PROFESSIONAL’S APPROVAL (See top of form for approved medical personnel)

It is my medical opinion that the above-named wrestler is naturally BELOW 7% (for males)/12% (for females) body fat and can compete in a safe and healthy manner at a weight class that may be below their weight predicted at 7%/12% body fat, but which is NOT below their actual body weight at the time their OFFICIAL body composition was assessment.

LICENSED MEDICAL PROFESSIONAL’S SIGNATURE DATE

LICENSED MEDICAL PROFESSIONAL’S NAME (typed or printed) DESIGNATION (MD, DO, DC, PA, ARNP)

ATHLETIC DIRECTOR/PRINCIPAL ACKNOWLEDGMENT

I acknowledge that the above named wrestler is permitted by their parent or guardian and the medical professional signing this form to compete at their natural weight that is BELOW their 7%/12% weight as predicted by body composition assessment.

ATHLETIC DIRECTOR’S OR PRINCIPAL’S SIGNATURE DATE

- OVER PLEASE FOR ADDITIONAL MEDICAL INFORMATION -
TO THE MEDICAL PROFESSIONAL SIGNING THIS MEDICAL RELEASE:
(Medical Doctor, MD; Doctor of Osteopathic Medicine, DO; Doctor of
Chiropractic, DC; Physician’s Assistant, PA; or Advanced Registered Nurse
Practitioner, ARNP)

National high school wrestling rules require a medical release for any wrestler
whose body composition at the time of body composition assessment is less than
7% for males, or 12% for females. The wrestler named on this release form is
requesting medical clearance stating he/she is naturally at a sub-7% or 12%
body fat level.

A wrestler having less than 7%/12% body fat at the time of body composition
assessment CANNOT certify, or wrestle, at a weight class less than their actual
weight at the time of assessment, even with a physician’s written release. If a
wrestler’s percent body fat at the time of body composition assessment is
BELOW 7% (12% for females) the wrestler shall wrestle at their minimum
wrestling weight class as determined by body composition assessment at
7%/12% body fat, or, if their sub-7% body fat weight is exactly that of one of the
weight classes, the wrestler may wrestle at that weight providing they have a
physician’s written release stating they are naturally below 7%/12%.

Most adolescents require a minimum of 7% body fat for males, or 12% body fat
for females, to achieve optimal growth and development. However, some
adolescents are naturally lean and develop normally at a lower percent body fat.
Please evaluate this wrestler for normal growth and developm ent, paying
particular attention to weight fluctuations and their growth curve. Based
on the wrestler’s history and your exam determine if their present weight is
compatible with normal growth and development.

By signing this release, you are indicating that, in your medical opinion, it
is safe and healthy for this wrestler who is naturally BELOW 7% (for
males)/12% (for females) body fat to compete at a weight class that may be
BELOW their weight predicted at 7%/12% body fat, but which is NOT below
their actual body weight at the time their OFFICIAL body composition was
assessment.

Questions or comments about this release should be directed to Alan Beste,
ATC, LAT, Executive Director, Iowa High School Athletic Association. 515-432-
2011 or abeste@iahsaa.org.
