

## IHSAA TEAM DOCTOR/SPORTS MEDICINE AWARDS

*Since 1976 the IHSAA Board of Control created an award to pay homage to team doctors, and in 1999 the award was renamed the Sports Medicine Award to also include therapists, trainers and other personnel who safeguard the health and safety of student-athletes. The award recognizes doctors and sports medicine professionals for their endless service, care and dedication to student-athletes, their community and attendance at interscholastic events. Nominations for the award are submitted by our member schools with selections being made by an independent panel.*
