TO: Athletic Directors and Track and Field Coaches  
SUBJECT: 2022 Preseason Track and Field Information

The 2022 Track and Field season is quickly approaching. As we prepare to start the season, we want to share some information with you as athletic administrators and coaches.

**START DATE** – Both offices have received a number of emails regarding when the season officially starts. Both organizations' boards approved an earlier start date compared to the 2021 season. Practice officially begins on Monday, February 21. The first competition date is still Monday, March 7.

**COACH NAMES AND EMAILS** – Athletic directors, please check your school directory through Varsity Bound to make sure your coaching contacts are up to date as we want email addresses up to use for the upcoming season.

**COACH-ATHLETE CONTACT** – We've received a number of questions regarding coach-athlete contract prior to the season. Schools are allowed to have open facility time where students may come into the facility and workout, practice, etc. During this time, coaches may only supervise the students in the facility. These coaches cannot diagnose, prescribe, evaluate or direct student learning outside of the season. What exactly does that mean in terms of track and field? During the offseason, coaches should not be working directly with their athletes on the techniques of the sport. Field event drills, hurdle drills and start drills are just some of the examples of activities that coaches cannot be conducting during the off-season. When these open facility workouts occur, the coach can simply just supervise activities.

The coach-athlete contact rule is gender specific. If your school has two different sprint coaches where one works only with the boys program during the season and the other with the girls program during the season, that boys sprint coach can work with the girls in the offseason and the girls sprint coach with the boys. If there is any possibility of that girls coach helping the boys sprinters during the regular season, the girls coach should not be coaching members of the boys team in the offseason. However, your boys throws coach cannot work with your boys sprinters as they are affiliated with the same program.

Both organizations interpret the coach-athlete contact rule to allow coaches to work directly with their students on non-sport specific strength and conditioning programs throughout the school. Examples of conditioning drills that are allowed include speed ladders, cone drills and plyometrics.

**RULE BOOKS** – The IHSAA and IGHSAU will not be sending rule books this spring. New books will be sent in 2023. 2022 rule changes can be found here: <https://nfhs.org/sports-resource-content/track-field-and-cross-country-rules-changes-2022/> and will be covered in the online rules meeting.

**ONLINE RULES MEETING** - The online track and field rules meeting will be available for viewing on Monday, February 21. The rules meeting will be available until March 24. Please remember that all head coaches are

required to view the online rules meeting. Failure to do so will result in the head coach not being able to coach in the state qualifying and state meet.

**CONCUSSION EDUCATION REQUIREMENT** – All coaches, grades 7-12, are required to receive concussion education before the first day of practice. If any coaches were recently hired or will be hired and they have not viewed the concussion course, it is imperative that you get this take care of prior to the first date of practice.

**POLICY REGARDING COOPERATIVE PROGRAMS** - In the sport of track and field, member schools that are placed in different classes due to cooperative agreement decisions made by other member schools, shall remain in the same class. The member school will be placed in the lower of the two split classifications. Member schools placed in different classes, based on the member school's decision to have different cooperative programs for each gender or cooperative programs with different schools, for example sharing only one gender with another school, will remain in different classifications and be assigned to state qualifying events as classified. Member schools will not be allowed the choice to participate in a higher classification. In order for classifications to be determined in a timely manner, no new cooperative program will be accepted, nor will any existing cooperative program be allowed to dissolve after 5:00 pm Friday, March 18 for track and field.

**CLASSIFICATIONS** – Preliminary classifications are now posted on both the IHSAA and IGHSAA web site under their respective Track and Field pages. Please review your school's information to make sure it is correct, particularly if you are a part of a cooperative sharing agreement. Again, classifications become final at 5:00 pm Friday, March 18.

**SCRIMMAGES** – Schools are allowed one track and field scrimmage after the first legal practice date. Up to four schools may participate in the scrimmage. Just as with scrimmages in other sports, hosts are not to use a public address system for calling races nor or they to charge admission. Results are not to be entered into Varsity Bound, and no school time may be used to travel or participate in the event. The scrimmage also must be held at one of the school's regular practice facilities.

**NON-TRADITIONAL MEETS** – Schools are allowed one, one-day track and field meet in which all 19 events are not contested. Meet managers can decide which events to offer in these non-traditional meets (i.e. sprints only, individual events only, relays only, field events only, mix and match 10 events). These non-traditional meets would count as one of the school's 16 allowed meets. Sanctioned meets such as the Sioux City Relays are not considered non-traditional meets. Also, we have been informed by the Drake Relays High School Committee that performances in these non-traditional meets and scrimmages cannot be used for Drake Relay qualifying marks.

**STATE QUALIFYING MEETS & STATE MEET** – The State Qualifying Meets are currently scheduled for Thursday, May 12. State Qualifying Meet sites will be posted once finalized. The State Meet is currently scheduled for Thursday-Saturday, May 19-21. The state meet schedule can be found here: [https://www.iahsaa.org/wp-content/uploads/2022/01/22\\_State\\_TF\\_Schedule1.13.22.pdf](https://www.iahsaa.org/wp-content/uploads/2022/01/22_State_TF_Schedule1.13.22.pdf). We do flip this year and Class 1A and Class 4A will compete in the morning and Class 2A and Class 3A will compete in the afternoon. We are currently planning on having all four classes run together on Saturday as we did in 2019. Please note that for relay events, athletes will only be able to use tape or other flat objects to mark their steps on the track for these two meets. For regular season meets, the local games committee can still allow tennis balls for athletes to use.

**ADVISORY COMMITTEE NOMINATIONS** – We currently have a number of openings on the track and field advisory committee. The committee meets at the conclusion of the track and field season to review the previous season and to make recommendations to both governing boards. We ask coaches who are interested

in serving on this committee to work with their athletic director to complete the nomination form at the following link: <https://www.iahsaa.org/resources/forms/sport-advisory-committee-nominations/>.

**VARSITY BOUND** – The track and field portion of Varsity Bound will be open for member schools here sometime this week. When entering your schedules, schools are only required to enter the meets they **host**; however, they will need to enter the other schools participating in the meet, so the meet will appear on the visiting teams' pages. For indoor and out of state meets, you can either create a separate host facility (Wartburg College) or enter a note in the event name of the meet's location.

**WHEELCHAIR COMPETITORS** – If your team has a wheelchair competitor, please complete the form on either the IHSAA or IGHSAA site and return it to the respective organization by Friday, April 15. We need to work with our medal vendor to order awards for the state qualifying meets, and we want to make sure we do not forget a competitor. Thank you for your cooperation with this matter.

There will be more information provided to you as we get closer to the start of the track and field season and as the season progresses. Please do not hesitate to contact us if you have questions or concerns.
